

THE MYSTERY TREASURE

**A STORY OF
FRIENDSHIP**

BY WILLIAM NIU

CHAPTER 1

THE DIRTY HOUSE

There once was a man called Michael. He had a wife called Mishall and two sons. One was called Ben and the other was called Nick. They were poor and couldn't make lots of money. It was a problem that needed to be solved fast. They lived in a house that had only one room in a very small and very poor village. The house was as dirty as a mud pond. They were very disappointed with their lives. They didn't know what to do.

CHAPTER 2

THE TREASURE MAP

One day, the family drove to the beach in their dirty and tiny car. It was a quite squeeze in there. When they arrived, Ben and Nick jumped right off the car. They started running toward the beach. As soon as that happened, Michael and Mishall got off the car. Ben and Nick had already started digging in the sand with their soft shovel. It was bad quality and easy to break. So the two children needed always to be very careful. As soon as they were digging very deep, something caught their eyes. It looked like a paper covered by disgusting sand. Ben and Nick kept digging until they could take the paper out. Then they saw that the paper had a pirate mark on it and the title was Treasure Map. Then they said to their mother, "Look! Mommy! Look! It is

a treasure map! We dug it out of the sand!”
“Why! Is it fantastic! Let’s go there on our old, dirty boat and we’ll be rich!” said Mishall.

CHAPTER 3

THE TERRIBLE THING

The family followed the map and they were on their way. The boat was very tiny but the wave in the ocean was very strong. It was very hard to sail in the ocean with the old boat of theirs. They sailed day after day after day. On the third day it was very windy so Michael turned the steering wheel to the right direction and went inside the room on the boat. But a terrible thing happened. The wind was so strong that it turned the steering wheel to the wrong direction.

CHAPTER 4

THE SCARY WHALE

As the wind turned the steering wheel, they were heading to a place on the map called Posky Cave. The family inside didn't know anything about what was going on outside. "I want to look at that map." Nick said. Then he saw a cave on the map called Posky Cave. The map said that there was a giant whale in there. "Are you sure you are leading us to the right direction, father? But if we don't, what if we ended up going to the Posky Cave and were eaten by the giant whale?" Ben asked. "Oh! I'm pretty sure that I am leading you to the right direction. No need to worry!" Michael said proudly. Just by that moment they saw a scary cave. "Is that the Posky Cavvvvve?" asked the family. The cave looked just like the picture they

saw on the map. Then suddenly they went up in the air and crashed on a rock. The boat was broken and there was a whale.

CHAPTER 6

THE KIND WHALE

The map said the whale was very angry because nobody ever could be there. They were scared and they couldn't even move. Then the whale smiled what made the family surprised. "Hello! I am Mr. Whale. Why are you so scared? I am going to be kind to you. People were afraid of me because nobody had met me." The whale said. That made the family even more surprised. Their eyes grew so big and they just stared at the whale. "Heellooo Mr. Whhale. Are you going to hurt us?" Michael asked with trembling. "I only can be kind to you and I won't hurt you."

Mr. Whale said. So the family and the whale became friends.

CHAPTER 7

THE TREASURE

Michael and his family talked all about the travel and the treasure. So Mr. Whale decided to let the family sit on his back and he would swim to the island where the treasure was and help the family to have a better life. Mr. Whale swam 4 days and finally they got to the little island and they dug the treasure out. “Thank you so much Mr. Whale!” Mishall said. “My pleasure!” Mr. Whale said. Finally they could have a better life with the money they earned and the money they sold from the treasure. They were very happy.

CHAPTER 8

FRIENDSHIP

Mr. Whale visited Michael almost twice a week. “Well. A friendship is one of the most important things that need to be added to your life to make you happy and, when you need help like the treasure and I can make your life easier, and that is what a friendship does, right?” Mr. Whale said.

“Yes! You are very kind to me Mr. Whale. You’ve made our lives easier. Thank You!” said the whole family. The whole family cheered for Mr. Whale.

Another good ending and happy ending!
